

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (Cancelled)

2. (Currently Amended) ~~[[The]]~~A shredder blade ~~made by punching and bending according to Claim 1, made of a sheet metal by a punching die to form a blade body having a circular periphery, wherein the blade body is formed with top and bottom transections on the circular periphery; symmetrical cutting portions; connecting portions and supports extending outwards from the transections; a serrated cutting edge integrally formed around a remaining periphery of the blade body; and a polygonal central hole through which a rotary shaft may pass; and~~

wherein the cutting portions, connecting portions and supports are pressed towards a first direction to protrude from a major side of the ~~[[toll]]~~blade body, and the cutting portions and supports are then bent towards an opposing second direction such that the resulting cutting edges are substantially configured into a right triangle.

3. (Currently Amended) The shredder blade made by punching and bending according to Claim ~~[[1]]~~2, wherein the blade body is formed with an annular crease that is punched along an inbound of the circular periphery to enhance bending resistance of the blade body.
